fou want to deploy containers to GKE that should be publicly accessible. What should be the service ty if the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry.		
ou want to deploy a container-based app to GCP. This app is a monolith app with a single service. Which intainer service should you use? GKE Good job! Correct! uestion 2: but want to deploy containers to GKE that should be publicly accessible. What should be the service type the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. uestion 3: Which of the following IS NOT supported by Artifact Registry? Documents	②	
u want to deploy a container-based app to GCP. This app is a monolith app with a single service. Which nationer service should you use? GKE Good job! Correct Justin 2: Justin 2: Justin 2: Justin 3: Justin 4: Justin 6: Justin 7: Justin 7: Justin 8: Just		
Intainer service should you use? GKE GOOD GOND GOOD JOB! Correct! Justion 2: Justion 2: Justion 4: ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Justion 3: Inch of the following IS NOT supported by Artifact Registry? Documents		
Good job! Correct! Uestion 2: Du want to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Uestion 3: Chich of the following IS NOT supported by Artifact Registry? Documents		
 Cloud Run Good job! Correct! dou want to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. duestion 3: Which of the following IS NOT supported by Artifact Registry? Documents 	orrean	ior service should yet use.
Good job! Correct! Auestion 2: You want to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Auestion 3: Which of the following IS NOT supported by Artifact Registry? Documents	\bigcirc	GKE
Good job! Correct! Auestion 2: You want to deploy containers to GKE that should be publicly accessible. What should be the service typ of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Auestion 3: Which of the following IS NOT supported by Artifact Registry? Documents		
Correct! Duestion 2: You want to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Duestion 3: Which of the following IS NOT supported by Artifact Registry? Documents	•	Cloud Run
Correct! Couvaint to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Correct. You cannot store documents in Artifact registry. Cuestion 3: Which of the following IS NOT supported by Artifact Registry? Documents		
Correct! Auestion 2: You want to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Auestion 3: Which of the following IS NOT supported by Artifact Registry? Documents		
Correct! Auestion 2: You want to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Auestion 3: Which of the following IS NOT supported by Artifact Registry? Documents		
Correct! Couvaint to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Correct. You cannot store documents in Artifact registry. Cuestion 3: Which of the following IS NOT supported by Artifact Registry? Documents		Good job!
You want to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Duestion 3: Which of the following IS NOT supported by Artifact Registry? Documents	V	
ou want to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Duestion 3: Which of the following IS NOT supported by Artifact Registry? Documents		
ou want to deploy containers to GKE that should be publicly accessible. What should be the service type of the deployment? ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Duestion 3: Which of the following IS NOT supported by Artifact Registry? Documents	uesti	on 2:
ClusterIP NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Duestion 3: Which of the following IS NOT supported by Artifact Registry? Documents		
NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Auestion 3: Which of the following IS NOT supported by Artifact Registry? Documents		
NodePort Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Documents Documents Documents		
● Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Duestion 3: Which of the following IS NOT supported by Artifact Registry? Documents	\bigcirc	ClusterIP
● Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Question 3: Which of the following IS NOT supported by Artifact Registry? ● Documents		
● Load Balancer Good job! Correct. You cannot store documents in Artifact registry. Question 3: Which of the following IS NOT supported by Artifact Registry? ● Documents	\bigcirc	NodePort
Good job! Correct. You cannot store documents in Artifact registry. Question 3: Which of the following IS NOT supported by Artifact Registry? Documents Documents		
Good job! Correct. You cannot store documents in Artifact registry. Question 3: Which of the following IS NOT supported by Artifact Registry? Documents Documents		
Correct. You cannot store documents in Artifact registry. Question 3: Which of the following IS NOT supported by Artifact Registry? Documents	\odot	Load Balancer
Correct. You cannot store documents in Artifact registry. Question 3: Which of the following IS NOT supported by Artifact Registry? Documents		
Correct. You cannot store documents in Artifact registry. Question 3: Which of the following IS NOT supported by Artifact Registry? Documents		
Correct. You cannot store documents in Artifact registry. Question 3: Which of the following IS NOT supported by Artifact Registry? Documents		
Correct. You cannot store documents in Artifact registry. Ruestion 3: Which of the following IS NOT supported by Artifact Registry? Documents		
Correct. You cannot store documents in Artifact registry. Question 3: Which of the following IS NOT supported by Artifact Registry? Documents		Good job!
